

LARRY CABALLERO
STATE SENATE, 35TH DISTRICT

I am proud to be an American and to live in this great country. My parents taught me to love America and to use my talents well.

I have been a public school teacher for 38 years, on policy boards of three teacher associations, and I have been active in my community for thirty years. A good education is important to Californians. I will support meaningful education reforms in Sacramento.

I will protect our quality of life and family values, but not by forgetting those who cannot defend or support themselves. As the richest country in the world, we have inadequate health care and children who go to bed hungry each night. That is wrong.

I support border and homeland security, not by blaming immigrants who seek work, become consumers, and give back to the economy, but by enforcing current laws and living up to the ideals of our Constitution.

Government overspending is a problem to solve, big businesses and corporations take advantage of tax cuts, and the middle and working classes pay more tax with fewer deductions.

I will protect the environment, am concerned about global warming, gas prices, and off shore drilling. I will protect resources like our beaches and the Bolsa Chica wetlands.

Unlike candidates who take money from special interests, I will not be owned by lobbyists. You are my interest.

In April, only 19% of the electorate voted. I pledge to work hard for you, but I need your vote to make this possible.
